Home Page

Database

Home Page

We have created the design of an adult income census prediction application in a such way that user can insert their Inputs according to their requirements in a flexible manner on a front page.

Adult Income Census Prediction

Age

Sex

Capital Gain

Capital Loss

Hours Per Week

Country

Employment_type

Predict

Database

We have created 8 columns on the Database page below the design. All the columns are being populated from Cassandra database on API hit.

Id	Age	Sex	Capital Gain	Capital Loss	Hours Per Week	Country	Employment Type
